THE BOOK THAT CONFIRMS WHAT YOU ALWAYS SUSPECTED

There are only 2 suspects in the terror and mass murders of 9/11/2001

- (1) The Bush administration who had the only means to carry it out.
- (2) Osama Bin Laden, the man the government accused.

STOP the COVER-UP - BRING THE TROOPS HOME

Americans deserve to know the truth about the 9/11 event because everything that's happened since then is connected - The assault on US sovereignty, the Constitution and Bill of Rights, the Rule of Law and the protection of private property and personal wealth as the push to the New World Order of global governance threatens to undermine the US dollar as the world's reserve currency. Then consider the collapse of global wealth in the mortgage bubble crisis – risky practices that Tim Geithner is willing to repeat when he gives investment banks permission to return to the same casino practices that caused taxpayers to fork-up a trillion for the first bailout.

I recently read David Ray Griffin's latest book: "**The “Mysterious Collapse of World Trade Center 7: Why the final official report about 9/11 is unscientific and false.”**

Griffin's meticulous research exposes the science fraud of government agencies and how political pressure from the Bush administration corrupted key scientists at the National Institute of Science and Technology (NIST) that resulted in the admitted failure of the 9/11 commission to find the “truth” for the families of the murdered victims and the American people.

This is an excellent book for anyone but especially for those who are just beginning to research the events of 9/11. Griffin’s tedious review of legislative history and foot-noted historical documentation consolidates the vast accumulated facts of the past eight years into a comprehensive document that reveals more truth than corporate media has ever been allowed to print.

Griffin firmly establishes the government allegation against Al Qaeda and Osama Bin Laden could never hold up in a court of law - a good reason why the events of 9/11 have never seen anything close to valid judicial proceedings with subpoena power, sworn testimony and whistleblower protection. In fact, Bush and Cheney prohibited Congress from completing such an investigation already underway in 2002. Since then, Congress has never responded to public pressure to re-open the 2002 investigation in order to find out what *really* happened.

Peace advocates can demand that Obama halt troop deployment to Afghanistan pending the outcome of a valid investigation of 9/11.

Tea Partiers and Progressives are waking up to the institutionalized war of deceit waged by corporate media that promotes the seminal lie of 9/11 as the public’s *red meat* to send troops to find Bin Laden while actualizing the real agenda of occupation and plunder for oil in Afghanistan and the middle-east.

Newscasters, anchors, pundits and even so-called "investigative reporters" must now answer the charge of aiding and abetting high treason with their outrageous and obedient parroting of the government’s official story without any question, as if Bush’s executive *edict* blaming Al Qaeda is to be taken as an irrefutable fact of settled history.

Read this book and watch the government lie about 9/11 *collapse* before your eyes like an old Las Vegas hotel. **Then get angry and do something about it.**
